

## Certified Natural Alexandrite Oval 1.34cts.

Medium very strongly bluish green in daylight (fluorescent), and medium reddish purple under incandescent light, the color change is excellent and attractive under any kind of light. The cut, polish, and proportions are and good. No major inclusions are apparent but the stone is somewhat silky and this may also account for the superior color change. Alexandrites rarely show such a strong color change.

### Grade Score 8 / 10

Color Fair (2/5) Cut Exceptional (5/5) Carat Large (4/5) Clarity Exceptional (5/5) Rarity Rare (4/5)
